

25PR 24AWG U/UTP CAT5 / Part No.: LN-A2524AUC5

Description		Application																																																																				
<ul style="list-style-type: none"> ■ Rated temperature: 75°C ■ Reference Standard: UL Subject 444, EIA/TIA 568B & ISO/IEC 11801 ■ Solid bare copper conductor ■ Colour-coded PE insulation ■ Rip cord (optional) ■ PVC or LSZH jacket ■ Packaging: Reel 		<ul style="list-style-type: none"> ■ 100 Base-T4 ■ 100 Base-TX ■ 100 VG-AnyLAN ■ 1000 Base-TX ■ 155 Mbps ATM ■ 622 Mbps ATM ■ Token Ring

Operating Voltage-UL		300V
Structure	Construction	U/UTP																																																																				
Insulation	Number of Pairs	25 Pair																																																																				
	AWG	24 AWG																																																																				
	Conductor Dimension (mm)	0.51																																																																				
	Solid or Stranded; Bare or Tinned	Solid bare copper																																																																				
Shield	Insulation Material	HDPE, FRPE																																																																				
	Insulation Dimension (mm)	0.91																																																																				
	Number Colour (Ring or Strip Marking)	-																																																																				
	Cross Filler	No																																																																				
Outer Jacket	Individual Shield & Material	No																																																																				
	Outer Shield & Material	No																																																																				
	Drain Wire	No																																																																				
Mechanical Characteristics	Outer Jacket Material	PVC or LSZH																																																																				
	Outer Jacket Ripcord	Per customer request																																																																				
	Overall Nominal Diameter (mm)	11.5mm																																																																				
Electrical Characteristics	Operating Temp. Range	-20~75°C																																																																				
	Bulk Cable Weight (KG)	173KG																																																																				
	Max. Recommended PullingTension	-																																																																				
	Min. Bend Radius (Install)	92mm																																																																				
	Flame Test	CMX, CM, CMG, CMR, IEC60332-1																																																																				
	Nom. Mutual Capacitance @ 1kHz	≤ 5.6nF /100M																																																																				
	Max. Capacitance Unbalance (pF/100m)	≤ 330pF /100M																																																																				
	Nominal Velocity of Propagation	65%																																																																				
Max. Delay Skew (ns/100m)		≤ 45ns /100M																																																																				
Max. Conductor DC Resistance @ 20 Deg. C		9.38Ω /100M(24AWG)																																																																				
Max. DC Resistance Unbalance @ 20 Deg. C		≤ 5%(Per TIA/EIA-568B.2) ≤ 3%(Per IEC 61156-2)																																																																				
Max. Insulation Resistance (MΩ/km)		150																																																																				
Max. Operating Voltage-UL		300V																																																																				

* Custom configuration is available upon request.

Specifications may change without notice.
